## BMC PROGRAMME OUTCOME

<b>B.SC (COMPUTER SCIENCE) COURSE OUTCOME</b>	After Completion of the course, the students will be able to understand the basic principles and concepts of Computer Science and apply the concepts of Computer and practices via emerging technologies and Software development tools.
<b>B.SC (COMPUTER SCIENCE) LEARNING OUTCOME</b>	Acquisition of Knowledge and understanding of system, various programming languages and tools. Empower the students with competencies in creative thinking and problem solving, inter-personal communication and managerial skills.
<b>BCA COURSE OUTCOME</b>	The programme is designed with the intent of providing sound knowledge in the different domains of computer science, financial accounting and management. The primary objective of the course is to train the students to develop practical skills and professional competence in developing software to address the business problems.
<b>BCA LEARNING OUTCOME</b>	Our graduates will have the necessary skills and technical knowledge in programming languages and clarity on both conceptual and application oriented skills in commerce, Finance & Accounting and IT Applications in Business context thus churning out employable IT workforce.

## BMC PROGRAMME OUTCOME

<b>B.SC. MICROBIOLOGY COURSE OUTCOME</b>	<p>The program enables the students to acquire knowledge on the major branches and applications of Microbiology. It imparts the knowledge of etiological agents responsible for various infectious diseases. The program motivates the students to pursue higher education and also research.</p>
<b>B.SC. MICROBIOLOGY LEARNING OUTCOME</b>	<p>Graduates acquire adequate theoretical Knowledge and practical skills in Microbiology. They are prepared for a prosperous career in the field of Microbiology and also prepared to adapt in an environment of constantly developing technologies. They are also motivated for Bio -entrepreneurship.</p>
<b>BIOCHEMISTRY COURSE OUTCOME</b>	<p>To enable students think critically &amp; familiarize with various concepts and techniques handled in the field of Biochemistry</p> <p>To motivate them to update about current developments in the scientific community</p>
<b>BIOCHEMISTRY LEARNING OUTCOME</b>	<p>Students come out with a sound understanding of subjects they learn.</p> <p>They are empowered to work individually for future developments and are prepared to contribute to the society in various research &amp; health care sectors.</p> <p>To develop awareness about working in a lab, and ethics followed for scientific publishing of their research work in future.</p>

<b>B.SC (ELECTRONICS &amp; COMMUNICATION SCIENCE) COURSE OUTCOME</b>	This course intends to train the students to become confident enough to start their career in Industries. The core objective of the programme is a thin line between Diploma and Engineering, where they fit in with technical, analytical and programming skills in Machine level as well designing IOT circuits and automation applications, understanding Medical Equipment. Develop consciousness of professional, ethical and social responsibilities as a Technical person.
<b>B.SC – ELECTRONICS &amp; COMMUNICATION SCIENCE – LEARNING OUTCOME</b>	This programme is designed to offer practical broad knowledge of the various IOT applications. They would like to upgrade by doing their higher studies in Medical equipment and consumer electronics. They would acquire analytical and logical skills, well suited for Industries.
<b>B.SC (HOTEL AND CATERING MANAGEMENT) COURSE OUTCOME</b>	This course provides the aspirants in under graduate level courses are principles and practices of management, hospitality operations and management, organisational behaviour, food and beverage management, travel management, and the likes.
<b>B.SC (HOTEL AND CATERING MANAGEMENT) LEARNING OUTCOMES</b>	This programme is designed for the students to equip themselves professionally in all major subjects and choose their career in the hotel industry. The objective of this programme is to make the student concentrate on all – round development and inculcate the importance of acquiring multi – skills which are the need of the hospitality industry in this new millennium.

<b>B.COM(ISM) COURSE OUTCOME</b>	This Course focuses on computer programming and applications, knowledge of accounts, management of finance, human resource and marketing, and develop various statistical, quantitative and research techniques.
<b>B.COM(ISM) LEARNING OUTCOME</b>	This Programme is designed in such a way that students can either choose accounting line or computing line. In every semester, students will be studying both commerce subjects as well as computer subjects. We provide fully equipped computer lab.
<b>B.SC MATHEMATICS COURSE OUTCOMES</b>	This Programme intends to understand the foundations of mathematics and able to perform basic computations, maintain problem solving skills and they have experience using technology to address mathematical ideas.
<b>B.SC MATHEMATICS LEARNING OUTCOMES</b>	Students will demonstrate the ability to determine the validity of a argument and be able to construct mathematical proofs independently. They will communicate mathematical ideas clearly and have the ability to think critically, research and reason.

<p><b>BSC.(PHYSICS) COURSE OUTCOME</b></p>	<p>This course imparts knowledge in both theory and practical field of physics. The course enables student's deep understanding of both matter and energy. Subjects like electronics and Microprocessor enable the students to broaden their horizons in the field of electronic components.</p>
<p><b>BSC.(PHYSICS) LEARNING OUTCOME</b></p>	<p>This course is able to kindle critical thinking .This course not only gives academic excellence to pursue higher studies but employability in various sectors of teaching ,MNC companies and research.</p>

<p><b>B.SC (CHEMISTRY) COURSE OUTCOME</b></p>	<p>This programme enables the students to have sound knowledge about chemical and scientific theories. This programme is designed to provide a strong understanding of major thrust areas of the discipline of chemistry like analytical, organic, inorganic, physical, environmental and polymer at an advanced level. This programme inculcates a glimpse of contemporary research both in terms of academia and industry enabling the students to pursue their careers.</p>
<p><b>B.SC (CHEMISTRY) LEARNING OUTCOME</b></p>	<p>This Programme initiates students on all the fundamental and scientific aspects of Chemistry. The students will have a broad foundation in chemistry that stresses scientific reasoning and analytical problem solving with a molecular perspective. Through this programme the students will be able to explore new areas of research in both chemistry and allied fields of science and technology. Students will appreciate the central role of chemistry in our society and use this as a basis for understanding of safe handling of chemicals, environmental issues and key issues facing our society in energy, health and medicine.</p>

<b>BCOM (ACCOUNTING &amp; FINANCE) COURSE OUTCOME</b>	The students will be ready for employment in functional areas like accounting, taxation, banking, insurance and corporate law. An attitude for working effectively and efficiently in a business environment. Learners will gain knowledge of various disciplines of commerce, business, accounting, economics, and finance, auditing and marketing.
<b>BCOM (ACCOUNTING &amp; FINANCE) LEARNING OUTCOME</b>	Students also acquire skills to work as tax consultant, audit assistant and other financial supporting services. Students have choices to pursue professional courses such as CA, M.COM, MBA, CMA, ICWA, CS, etc.
<b>B.Sc (PSYCHOLOGY) COURSE OUTCOME</b>	This course will help students demonstrating the acquisition of both factual knowledge and the ability to conceptualize and apply this knowledge to their own behavior, to ways of interacting with others and to their roles in the society. It helps to prepare students to take professional careers in Psychology and open avenues to branch out to specialization in different areas of Psychology.
<b>B.Sc (PSYCHOLOGY) LEARNING OUTCOME</b>	Students will be able to understand and be able to apply principles of the scientific method and critical thinking. Students will be enabled to become professional psychologists and are prepared to be resilient and meet the challenges of life.

## PG COURSES

<p><b>M.COM COURSE OUTCOME</b></p>	<p>Masters of commerce is designed to intensify the rudimentary management skill of students in the area of business and also in the area of banking and financing it also serves the purpose of research and teaching in business studies</p>
<p><b>M.COM LEARNING OUTCOME</b></p>	<p>Master of commerce is a postgraduate course in the field of commerce that is particularly aimed for students who want to become an expert in different fields of banking and finance. The course provides quality education to the students serving the needs of managerial cadre in business and industry. It also serves the purpose of research and teaching in business studies. Masters in commerce and finance focused curriculum offers a number of specializations and practical exposures which would equip the student to face the modern-day challenges.</p>
<p><b>M.SC (INFORMATION TECHNOLOGY ) COURSE OUTCOME</b></p>	<p>Post Graduates of the program will possess the skills and knowledge to demonstrate a comprehensive understanding of the broad themes in Information Technology and also learn the concepts of life and managerial skills, communication skills, during the period of study.</p>
<p><b>M.SC (INFORMATION TECHNOLOGY) LEARNING OUTCOME</b></p>	<p>After Completion of the course, the students will be able to identify, design, and analyze, implement and interpret complex computer systems. Apply current techniques, skills, and tools necessary for computing practice and integrate IT-based solutions.</p>

<b>M.Sc BIOCHEMISTRY COURSE OUTCOME</b>	To provide in depth knowledge of various biochemical aspects. To motivate them to pursue higher studies both after PG and to update about current developments in the scientific community
<b>M.Sc BIOCHEMISTRY LEARNING OUTCOME</b>	They are empowered to work individually for future developments and are prepared to contribute to the society in various research & health care sectors. They develop awareness about working in a lab, and ethics followed for scientific publishing of their research work in future.

<b>M.A (HRM) COURSE OUTCOME</b>	The Master of Human Resource Management aims to provide the graduates with a thorough theoretical understanding of human resource concepts and the ability to apply these in practice.
<b>M.A (HRM) LEARNING OUTCOME</b>	The participant must be able to apply the basic principles of scholarly research. This implies originality and the ability to make a contribution to scholarly based human resource management with focus on recruitment, selection, careers, learning, performance, reward, appraisal, job design and labour relations.

<b>M.A ENGLISH LITERATURE COURSE OUTCOME</b>	<ul style="list-style-type: none"> <li>• It enhances the interpretative and expressive skills of students.</li> <li>• It inspires a flair for research in humanities.</li> <li>• Develop a wide reading habit which will include works from non-English speaking countries, gaining an insight into the socio-cultural and political diversities.</li> </ul>
<b>M.A ENGLISH LITERATURE LEARNING OUTCOME</b>	<p>The programme:</p> <ul style="list-style-type: none"> <li>• Help the students learn the evolutions of language and the politics.</li> <li>• Enhances critical thinking of students</li> <li>• Honors the writing skills of students and they learn the convention of academic writing</li> </ul>

<b>M.SC. MATHS COURSE OUTCOME</b>	<p>The programme aims to inculcate critical thinking and carry out scientific investigation objectively without being biased with preconceived notions. To nurture problem solving skills, thinking, creativity through assignments, project work</p>
<b>M.SC. MATHS LEARNING OUTCOME</b>	<p>To prepare students for pursuing research or careers in industry in mathematical sciences and allied fields. Equip the student with skills to analyze problems, formulate hypothesis, evaluate and validate results, and draw reasonable conclusions thereof.</p>

<p><b>M.SC.(PHYSICS) COURSE OUTCOME</b></p>	<p>The focus of the Master of Science in Physics is to enrich the candidates with logical and analytical skills, acquire knowledge to find their placement especially in education and research domains. The cognizance of their practical experiments is to mold them in analyzing, inferring the outcome of the results, and resolving the errors, if any, with relevant corrections.</p>
<p><b>M.SC.(PHYSICS) LEARNING OUTCOME</b></p>	<p>On successful completion of the course, the candidate bestow with subtle knowledge in Physics, Mathematics, and specific mastery in Computer Science. The candidates possess a profound understanding in the specialized arena of higher Physics, quench their research quest.</p>
<p><b>M.SC (COMPUTER SCIENCE) COURSE OUTCOME</b></p>	<p>The programme aims to impart a sound understanding of the general principles of Computer Science to students who have an academic track record in computer science. The master of science in Computer Science Program provides the students with knowledge, general competence, and analytical skills on an advanced level, needed in academics, industry, research.</p>
<p><b>M.SC (COMPUTER SCIENCE) LEARNING OUTCOME</b></p>	<p>A Postgraduate degree holder in Computer Science possesses advance level of knowledge to communicate computer science concepts, designs, and solutions effectively and professionally. They will be able to identify the new thrust areas of research in Artificial Intelligence, Machine learning etc. The students will get industrial exposure through Industrial Internship programme and project work in IT industry.</p>

## M.Phil COURSES

<b>M.PHIL IN COMMERCE COURSE OUTCOME</b>	Master of Philosophy is a Postgraduate Academic Research Degree Course. It studies about the nature of man and ideas in context to a certain field of study. Philosophy is a comprehensive system of ideas about human nature and the nature of the reality we live in. this course helps students of commerce to get in-depth knowledge of the study
<b>M.PHIL LEARNING OUTCOME</b>	Accordingly, M.Phil. Course is introduced to provide theoretical and research based knowledge to the students who have completed post-graduate degree at the university level. The course content is designed to impart knowledge regarding theory and techniques of research and Moreover, to enhance their research skill in the application of research techniques, dissertation work is included in the curriculum.
<b>M.Phil BIOCHEMISTRY COURSE OUTCOME</b>	To provide quality research experience and to update on the recent developments
<b>M.Phil BIOCHEMISTRY LEARNING OUTCOME</b>	Students come out with good research experience and develop a positive attitude in publishing their research work and to proceed with their research work further.

**P.hD COURSE****P.HD IN COMMERCE  
COURSE OUTCOME**

The Ph.D. programme seeks to inculcate in each research scholar, the skills essential to become not only a qualified researcher, but also to excel in their chosen areas of research. The institute emphasis to increase the quality of the research in order to contribute to the growing pool of knowledge in each discipline. We have qualified faculty who are capable of conducting good, independent research in a responsible and ethical manner. The programme is uniquely oriented towards application of both theory and knowledge as derived from Research.

**P.HD  
LEARNING OUT COME**
